Brief: ELANRA

ACCESSORY OF THE WEEK

THE Australian-designed Elanra Air Personal Ioniser helps boost the immune system and guard against infections. Worn around the neck, the ioniser is certified for use on aircraft, and intensive and general hospital wards. It works by producing negative ions of oxygen, which are scientifically proven to substantially reduce airborne contaminants. The Elanra is fully programmable, powered by a 40-hour battery, and comes with a recharger and international adaptors. \$295. 1800 352 672; www.negativeions.com.
